

AI FOR ACCOUNTS PAYABLE

Paperwork in. Clean records out.

Template sample for Lathmere, a concept brand

Agenda

1. Why invoice matching stalls the close
2. How Lathmere reads and matches
3. What your team still controls
4. Pilot plan and next step

Why matching stalls the close

Three documents, three formats, one ledger entry

Your team reviews exceptions, not every invoice

- Lathmere reads invoices, purchase orders and delivery notes
- It checks that all three agree before anything posts
- Only mismatches reach a person, with the reason attached

Lathmere

CONCEPT

Demo

TRY IT

Watch it read one invoice.

Pick a case and press Run. Each field lights up on the page, then drops into the record. The supplier, numbers and documents are made up for this concept.

Clean match

Short delivery

Price change

Run

Norrow Packaging Ltd

Unit 4, Harbour Road

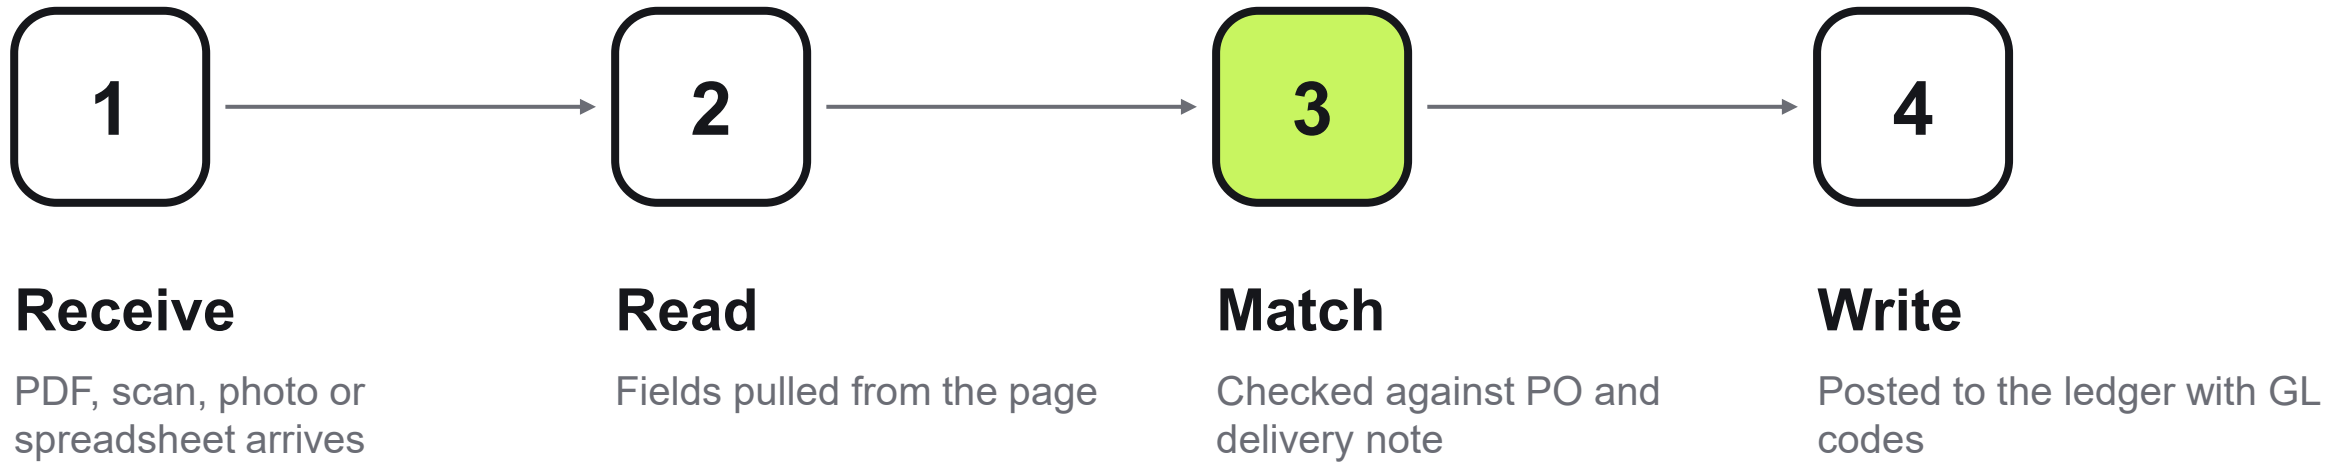

INVOICE INV-20417

12 Sep 2026

Ref PO-8830 / EUR

Item	Qty	Unit	Amount
Corrugated box...	40	42.00	1,680.00
Pallet wrap 50...	12	95.00	1,140.00
Void fill paper roll	20	73.00	1,460.00
			Made in Framer
Subtotal			4,280.00

One invoice, four steps

Lime marks the step where a person may need to act.

Before and after Lathmere

Today

- Fields keyed by hand from PDFs
- Missing delivery notes chased by email
- Mismatches found after posting

With Lathmere

- Fields read and checked on arrival
- Missing documents flagged per invoice
- Mismatches held before they post

See the reason behind every flag

Exceptions fall as vendor rules mature

Sample data for layout demo only.

The chart is native PowerPoint. Right click, Edit Data, and the bars, labels and colours update from the theme.

Four-week pilot plan

Week	Focus	Owner	Output
1	Connect inbox and ERP	Finance ops	Live document feed
2	Set vendor matching rules	AP lead	Rule list signed off
3	Run alongside the current process	AP team	Side-by-side report
4	Go live on two entities	Controller	Go or no-go decision

Example plan for the template. Rows and columns stay fully editable.

Start with one vendor, one month
